Copy of letter No. M.4-41/44., d ted 12th April 1944, from the Secretary to the Hon'ble the Resident in Mysore, Bangalore, to the Chief Secretary to the Government of Mysore, Bangalore.

Regulation of imports of arms located in Indian States.

I am directed to state that the Government of India understand that large quantities of counter stores are located in Indian States, having been removed from British India whenever the centers had until they might be requisitioned by the British Indian authorities. The presumption of these stocks for the surrender of India, for no ultimate, is a most grave in prospect. The Commander-in-Chief's Branch have no exact information as to the location and nature of the stores required by them, but they understand that quantities have been taken to States in Rajputana, Central India and Gujarat.

2. I am to enclose a list showing the type of explosive stores required as information of the quantities that should ultimately be taken. The list is not exhaustive either in respect of quantities or items, but is meant as a guide for the present. I am to

request that the Government of Iceland would be so kind as to cooperate in the investigation of the matter and to furnish information as to the existence of any such store in the state of Washington, for prosecution. The Iceland Consul General.
